

ESR INSTALLATION SYSTEM FRAME WITH SPECIAL SIPHON AND DRAIN OFF CONNECTION

- allows quick and accurate installation of shower trays flush with the floor
- versatile thanks to horizontally and vertically adjustable feet
- optimum sound insulation due to integrated sound insulation band, rubber mounting profile, corner support rubbers and noise-decoupled feet
- with non-return valve in the drain off connection so that in the event of the siphon becoming blocked, no water can go back into the frame of the ESR

Shower tray height with siphon		120	120	120	120	120	120	120	120	120	120	120 mm

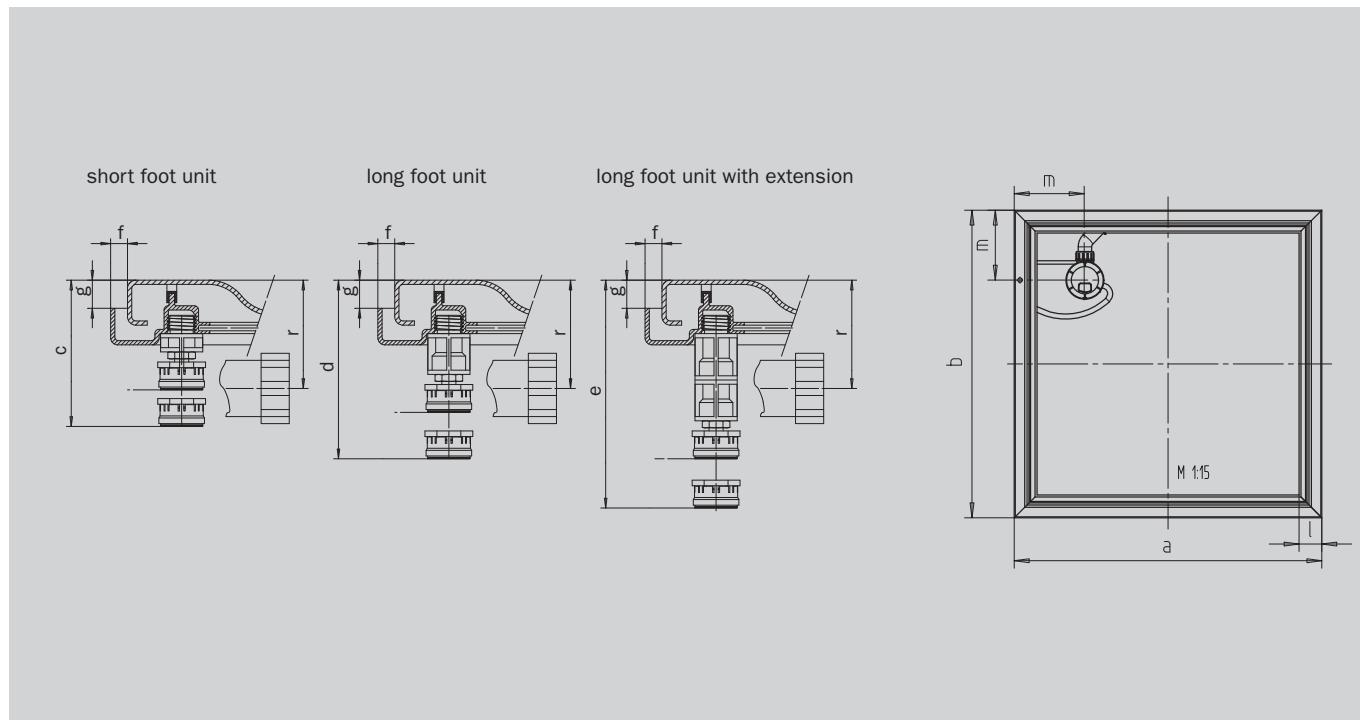

Take account of required plaster floor recess, dimensions a and b plus 4 mm

Minimum height shower tray with siphon for DUSCHPLAN (65 mm deep) 160 mm
Siphon connection height + 40 mm for DUSCHPLAN (65 mm deep).

If the structural height is less than 130 mm, take account of floor recess.
We recommend a non-return valve be fitted in the waste pipe.
